NOURBEL & LE CAVELIER

Specialising in entirely handmade pieces, Nourbel & Le Cavalier, based in the Burlington Arcade, works incredibly rare jewels into modern designs. Their signature Nourbel Diamond Bracelet is a case in point – this precious piece is made to twist, rope-like, into any way you feel like casually draping it around you. We also love their pieces created from micro-mosaic remnants from the late 19th to mid 20th century Italy. These one-of-a-kind pieces are studded with gems such as tourmalines, sapphires and tanzanites for true luxe bohemia. nourbel-lecavalier.com

UNGAR & UNGAR

Ungar & Ungar is comprised of a husband and wife team who are descendants of Eastern European jewellers, a heritage they nod to by using the ancient hand mill-graining technique on their pieces. It's a time-consuming process that imprints the work with beautiful, intricate patterns. The results are sumptuous and include Art Deco pendants with diamonds, red rubies and pink sapphires, stackable geometric bracelets and jazz-inspired earrings. ungarandungar.com
