NOURBEL & Le Cavalier

LONDON

Nourbel & Le Cavalier, the Swiss master jewellers, specialise in incorporating the rare and precious, such as remnants of 19th century Italian micromosaics, into alluring contemporary pieces that are often unique and always crafted entirely by hand. Their signature Nourbel 'Boa' diamond bracelet can be modelled to fit the individual wearer's wishes, and they also undertake a host of bespoke commissions for discerning clients.

This is your opportunity to own a one-of-a-kind, made-to-measure piece of jewellery designed especially for you. You will be welcomed to Nourbel & Le Cavalier's private drawing room to enjoy Champagne and macarons for two while you contemplate and discuss possible designs with the in-house artist. The gemologist will also give you a private view of some of the world's rarest and most desirable precious stones.
